

## MARSHALL MCMILLAN-ZAPF, LEED AP Architectural Designer

Marshall has worked in the building design and construction industry for over twenty years. Passionate about straightforward sustainable methods, his design and planning work seeks the architectural synthesis of clients' needs, aspirations, budget, context and community. He has designed a variety of projects including historic remodels/adaptive re-use; sustainable housing, amphitheatres, sculpture gardens, community centers, modular housing and elder housing.
